

# Taylorsville Lake Dam

Taylorsville, Spencer County, Kentucky

Construction of Taylorsville Lake Dam began in June 1974 and was completed in 1983. Above, the fill and removal related to the dam project is shown. The dam can be seen as the dense blue area slightly left of the center. To the right of the dam, the red patch represents removal of materials to create the spillway. To the left of the dam is an area removed to accommodate the road across the dam.
